I'm an ICT student and I enjoy things technical in nature. My education in JAMK has broadened my view on tech and has reaffirmed my decision to get into this field. Now I'm looking for opportunities where I can use my acquired skills and where I can advance career wise. With education I have experience in wide range of technologies such as web, database, programming, networks and cloud technologies. Through projects and internship, I have advanced my skills in software development and programming.

Education

2015 -	Engineer student (UAS), Information and communication technology (204/240credits) Jyväskylän UAS
2015	Finnish Matriculation Examination Kouvolan high school for adults
